

Reassessment by Monroe County March 11, 2019

Monroe County has contracted with Tyler Technologies to perform a reassessment of all real estate parcels within Monroe County. The assessment values were mailed out to all real estate owners earlier in the month. The new assessed value assigned to your property is a valuation of your property, not the establishment of a real estate tax.

Tyler Technologies has specific procedures for verifying or challenging your new property assessment. The web site www.monroecountypa.gov/reassessment can help you to understand how your property was valued, and answer questions regarding the reassessment project. If you still have questions or disagree with your property value, you can contact Tyler Technologies by calling 570-517-3895 between 8:30 am and 4:30 pm to schedule an informal review.
